WHATS HAPPENING

We are excited to announce that our tent will be up and finished next week, just in time for wedding season.

Sailcloth tents are a type of tent made from a translucent fabric similar to that used in sails for boats. This unique material gives the tents a distinctive, elegant look. The natural light filtering through the fabric creates a warm, soft glow, making them ideal for both daytime and evening events. We are excited to offer this unique upgrade to our 2025 and 2026 brides!

LIGHTING

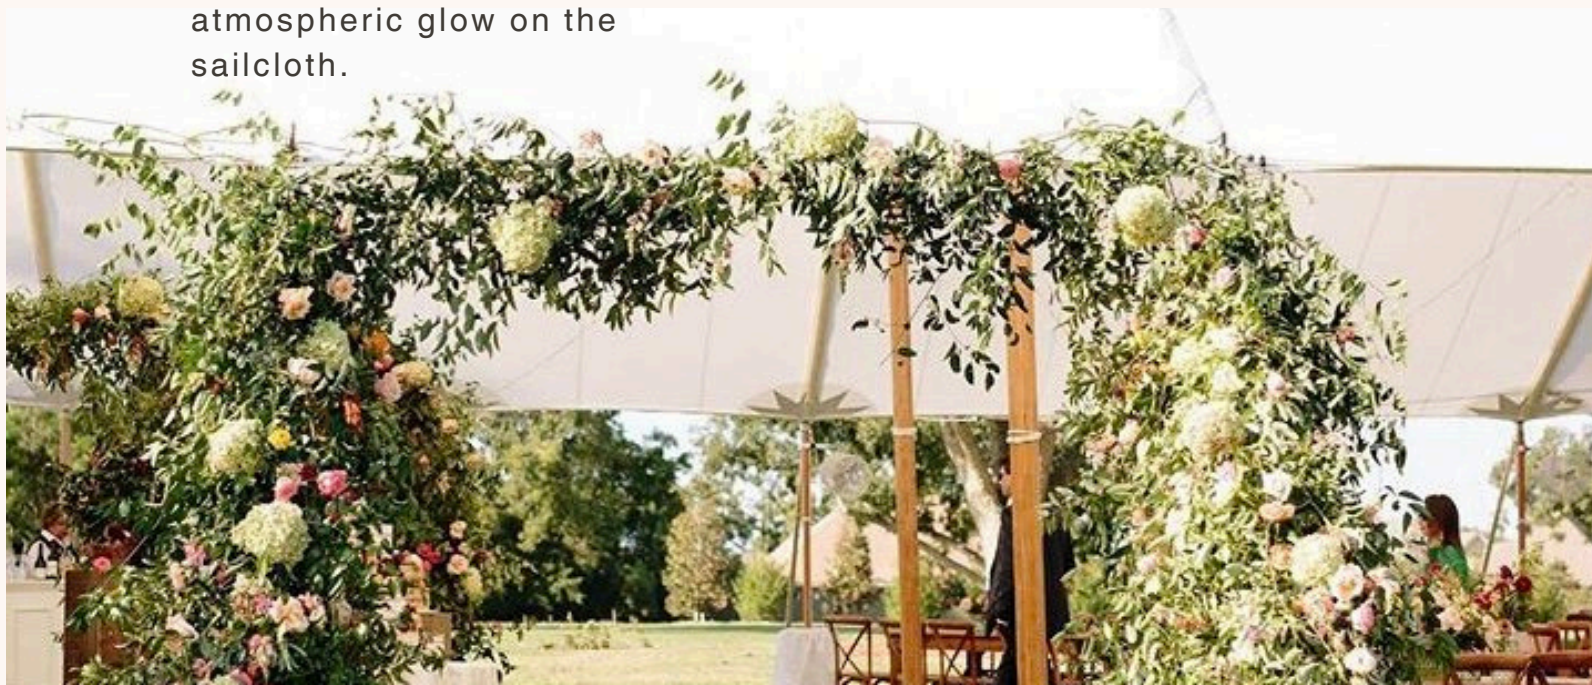

LET'S TALK STYLING YOUR SAILCLOTH TENT

LIGHTING

- **String Lights:** Drape fairy lights or string lights across the ceiling for a soft, romantic glow. You can arrange them in a crisscross pattern, or wrap them around poles.
- **Chandeliers:** Hang a chandelier or two in the center of the tent to add a touch of glamour and sophistication.
- **Lanterns:** Use paper lanterns or rustic metal lanterns for a more relaxed vibe.
- **Up-lighting:** Place LED lights around the perimeter or under the tent's frame to create an atmospheric glow on the sailcloth.

FLORALS

- Centerpieces: Use large floral centerpieces on the tables, matching the colors of your theme (whites, blush, or rich jewel tones).
- Hanging Florals: Suspend floral garlands or wreaths from the tent's beams for a whimsical, garden-inspired look.
- Flower Wall: Create a backdrop of florals for photo opportunities or the ceremony area.

FABRIC DRAPING

- **Ceiling Drapes:** For a dreamy, luxurious effect, you can drape fabric in a cascading style from the center poles or along the edges of the sailcloth.
- **Curtains:** Hang sheer or solid fabric curtains along the sides of the tent for a soft, billowy look. These can be pulled back or closed depending on weather and preference.

FURNITURE

- **Rustic Wood Tables & Chairs:** For a more rustic or bohemian look, go for natural wooden tables and mismatched chairs. If you're going for something more formal, elegant chairs with cushions can work well.
- **Lounge Areas:** Create cozy lounge areas with sofas, armchairs, or ottomans, especially if the event is more relaxed.
- **Bar Area:** Set up a chic bar area with a unique bar counter, possibly made from reclaimed wood or with a vintage vibe.
-

COLOR PALETTE

Since the sailcloth tent has a neutral color (usually a soft ivory or tan), it serves as a blank canvas. Pick a color scheme that matches your event's vibe. For elegant affairs, consider pastels or rich tones. For a rustic feel, earthy greens and browns work well. Creating a restaurant feel is in!
